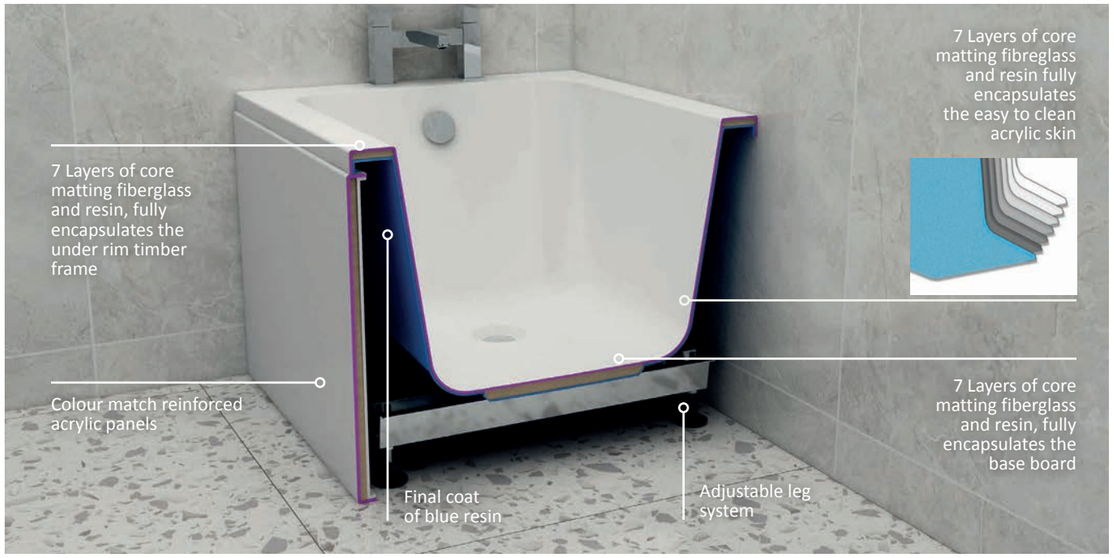
Infinitacast

The Ultimate Premium reinforced acrylic bath

Infinitacast baths are the ultimate premium bath, hand finished in the UK to the most exacting of standards. They are rigid, durable, strong and with a reassuring weight are perfect for all bathrooms, regardless of bath style chosen. The versatility of the materials used, the advanced manufacturing process and the quality of our craftsmanship means that Infinitacast baths can be designed in beautiful sculptural shapes that suit the contemporary bathroom.

Made from a high quality acrylic, the baths are reinforced with 7 layers of hand applied fibreglass core matting and resin bonding. The timber framed bath rims and bath bases are fully encapsulated in fibreglass matting and resin bonding providing extra rigidity, meaning the bath will not 'flex' when you step in.



Cast

Reinforced acrylic bath

All cast baths are constructed by both hand and automated processes, for efficiency and speed. The first process is to form the bath from high quality 5mm acrylic, we then add a full timber supporting frame to both the base of the bath and the underside of the rim. This creates a strong base so we can then apply a fibreglass sprayed layer, encapsulating the timber frame creating a durable and strong bath. Finally the bath is coated with a mix of resin and grey paint, which provides a smooth and strong final bonded surface.

Taps, wastes and overflows not included. For end panels see page 29. All prices include VAT.

Wetroom Shower Trays

Step by Step Guide

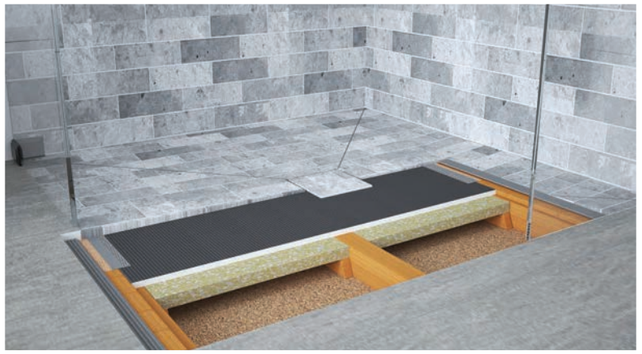
The Infinita wetroom system makes it easy to install high specification, watertight wetrooms. At the core of the system is the wetroom tray, engineered for safety and integrity, yet easy to adapt to any wetroom footprint. Perfect for both commercial and domestic use, the systems are ideal for family homes, hotels and healthcare facilities.

1. **Choose the right wetroom tray**
Infinita wetroom trays come in 19 sizes – simply choose the one that matches your wetroom area. The trays can be cut to size to accommodate awkward or unusual footprints.

2. **Select the drain and choose your finish**
The system works with the BBA approved Purus drains. You have a choice between a stainless steel grate or a tile insert for the drain finish.

3. **Choose your waterproof board**
All plasterboard within the wetroom area must be replaced with our tile backer board to ensure smooth installation and waterproof integrity. Tile backer board can also be used on floors within the wetroom area.

4. **Important! Waterproof your wetroom**
Infinita uses a simple-to-apply tanking system to make sure your wetroom remains watertight.



GRP Wetrooms

Manufactured from GRP with a stone resin core the Infinita system is designed for fast, straight forward installation. GRP wetroom shower trays are super strong and can be installed both on timber floors and concrete floors without the requirement of any support.

- Manufactured in GB with up to 30% recycled material
- Suitable for tiles, micro cement and vinyl installation
- Suitable for concrete and timber installations
- Supports up to 470kg in weight across 400mm joists
- Only 22mm thick allowing for flush to floor installation
- Can be cut to size for those unusually shaped areas

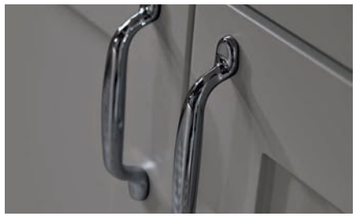
Follow our step by step guide to build your bathroom

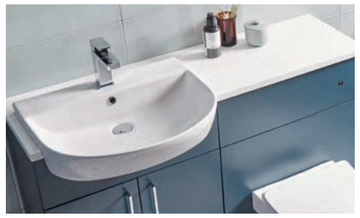
1. Door Style and Finish

Choose your preferred cabinet and depth of unit from either our Flush, Shaker or Formed range. Then choose your desired door colour to front your standard or space-saving slim depth units.



2. Handle Options

Choose your handle style from the seven available options.



3. Worktop and Basin Options

Select a worktop from either our solid surface or laminate options and a semi countertop basin. Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim units.

4. Cabinets

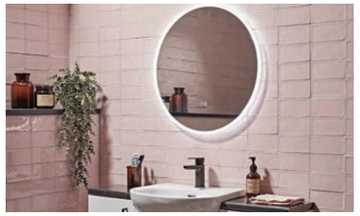
Choose your preferred cabinet and depth of unit from either our Flush, Shaker or Formed range.

5. Sanitaryware Options

Choose your Infinita sanitaryware. **See pages 136 – 167**.

6. Plinths and Panels

Select a plinth to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.



7. Mirrors and Cabinets

Choose your preferred mirror or cabinet, **see pages 230 – 245**. Also add any useful wall cabinets.

8. Lighting

Select a stylish lighting option.

9. Bath Panels

Select a co-ordinating bath panel.

10. Tap Options

Complete your bathroom with the addition of an Infinita basin mixer. **See pages 40 – 61**.

All prices include VAT.

TakeOff®- With our practical TakeOff® hinges, the toilet seat can easily be removed and re-attached without the need for any additional tools or any mechanical feature to push.

Duroplast - Duroplast toilet seats are extremely robust, scratch resistant and have extraordinary surface hardness. Duroplast toilet seats have a smooth and non-porous surface. This makes it much easier to clean the seat and lid.

SoftClose®- The practical SoftClose® Solution allows the toilet lid to be closed silently, gently and comfortably with just a tap of the finger - slowly, smoothly and evenly.

SolidFix®- Our high-quality hinges are made of stainless steel and are the basis of our toilet seats' reliable hold and accurate fit. Secure fastening through our reliable installation solutions prevents sideways movement of the toilet seat.

TopFix- the TopFix hinge solution enables convenient mounting from the top. The solid fixing nut and the stainless steel thread ensure additional fastening and the highest stability.

ExCenter - Our flexibly adjustable ExCenter stainless-steel hinges attach our toilet seats to all standard toilet models. This is because the metal hinges can be moved in four directions, impressing with their high degree of flexibility.

Close Coupled Sensor Flush Kits

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid. The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves.

For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our MDLK029 valve which has a 2" base.

Can be used with the following ranges:

MDLK027 - Ø38mm
- Amalfi
- Rapello
- Dauphin

MDLK028 - Ø48mm
- Lucca
- Siena
- Lenore

Stat Black

Thermostat

To get the best from your heating system, you need precise heating controls. Infinita underfloor heating offers a choice of two programmable touchscreen thermostats. Both use precise floor and air temperature control to provide you with a simple and efficient way to manage your system, providing comfort and reduced energy costs. Homeowners can program their settings to suit individual requirements; warmer when at home, lower when away or asleep.

- Elegant design
- Quick and easy to program
- 2 Year Warranty

Insulation Boards

Insulation boards are the perfect way to reduce your heating costs and get the most out of your underfloor heating system. They prevent downward heat loss, which retains the heating in your room longer and improves the heat up time of the room when the system is turned on.

- Available in 6mm and 10mm to prevent excessive build-up
- Compatible with concrete and timber subfloors
- No primer required when used with underfloor heating

INSBRD10-6	**Insulation Boards 10mm Thick (Pack of 6)**	1200 x 600 mm	**£142.99**

Warmup Thermostats

Choosing the correct thermostat is crucial to ensuring that your heating system works effectively, efficiently and easily. To provide you and your home with an optimum heating experience, Warmup offers a wide range of underfloor heating controllers from simple manual thermostats to the latest, remotely accessible Smart Thermostats.

INELTPW	**Warmup Tempo Thermostat – Porcelain White**	113(w) x 90(h) x 23(d)	**£140.99**
INELM01WHRG	**Warmup Element WiFi Light Thermostat – White**	86(w) x 86(h) x 16(d)	**£253.99**
INWU6iEOB	**Warmup 6iE WiFi Thermostat – Onyx Black**	90(w) x 115(h) x 16(d)	**£344.99**

Warmup Insulation Board

Insulation boards are ideal for use with electric underfloor heating as they prevent the heat from the heating system escaping downwards to the subfloor. The Warmup Insulation Boards do not let the heat pass through from the heater to the subfloor. Therefore the heat gets pushed upwards, onto the floor surface where you want the heat to go.

INSBRD6-1	**Warmup 6mm Insulation Board**	1250 x 600 mm	**£30.99**
INSBRD10-1	**Warmup 10mm Insulation Board**	1250 x 600 mm	**£28.99**

Warmup MyHeating App

Help your customers get the most out of their 6iE Wireless Smart Thermostat: all they need to do is download Warmup's MyHeating app for their smartphone. MyHeating enables unique features such as SmartGeo™, energy usage and running cost data, thermostat personalisation and remote heating control. Available on iOS, Android and with some functionality through your MyWarmup account on web browsers.

Elements

Elements

Standard Element – MDLE002

IP55 Suitable for zones 1 and 2 of the bathroom. Each standard element contains an internal preset over the temperature switch and fail safe fuse. There is no thermostatic control although a suitably rated rheostat (CD-VR) will give thermal control when fitted into the electrical supply circuit.

MDLE002-AC003	**Standard Element with T Dual Fuel**	**£106.99**
MDLE002SE	**Standard Element Sealed Electric**	**£229.99**

Heat Sensor Element – MDLE006

IPX5 suitable for zones 1 and 2 of the bathroom. Five temperature settings ranging from 30°c to 60°c. The device displays the temperature to which it is currently set and indicates the status of the heating cycle.

MDLE006-AC003	**Thermostatic Element with T Dual Fuel**	**£311.99**
MDLE006SE	**Thermostatic Element Sealed Electric**	**£419.99**

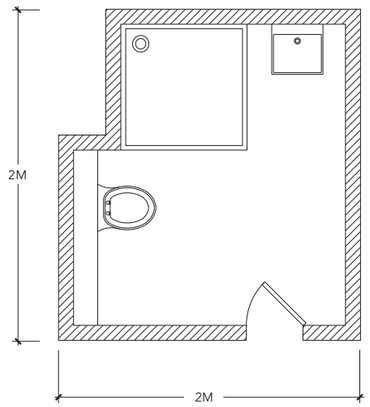
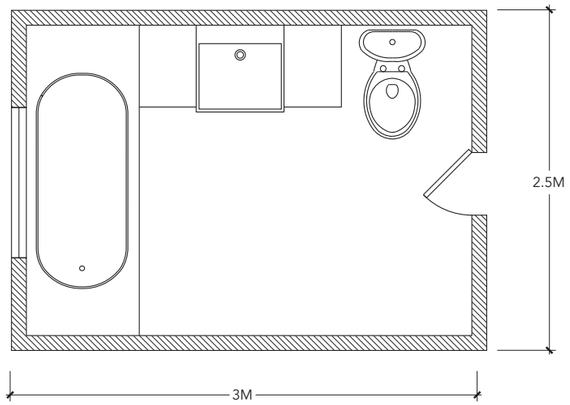
En-suite

Transform your en-suite into a tranquil retreat with modular furniture options that maximise every inch of additional space. Custom-made solutions can perfectly complement the individual needs of your bathroom, delivering a bespoke look with maximum storage capacity to contain your clutter.



Family Bathroom

Sharing a family bathroom requires a carefully planned space. Keep in mind the number of people who will be using the room. Choosing the right furniture and storage is vital to contain the clutter and ensure a stylish space.



Measuring your Bathroom

1. Draw a basic outline plan of the room – you can choose to measure in imperial or metric units but remember to keep the method of measuring consistent.
2. Mark the positions of key features on the room plan such as windows, doors, boilers and radiators.
3. Note the measurements of all walls, ensuring that you include the length of features such as windows and doors. Remember to include the measurement from the corner of the wall to the start of the window or door.
4. Measure any existing bathroom furniture that you intend to keep and note their position if you don't plan to move them.
