

GFC6R 1000mm Galvanised or Galvanised & Colour

A substantial bollard with a clean appearance, the GFC6R Ornamental Bollard is constructed from mild steel and galvanised to ensure its longevity. Caps and rings of cast iron are welded on to the steel body to complete the design.

The bollards are available in a galvanised and a galvanised and coated finish. RAL/BS numbers must be specified at time of order. Supplied Concrete in as standard, Bolt down and Removable versions are also available.

For additional security the bollard can be filled with either, or both, concrete or an additional steel core (ragged only). Eyelets, hooks and chains can be added to these bollards to complete the decorative effect. Please ask for more information.

Part Number	Description	Lift Weight (kg)	Weight (kg)
138 120 171	Galvanised - Concrete In		32kg
138 120 172	Galvanised & Black - Concrete In		32kg
