

**HOWARTH
TIMBER**

Putting the customer at the
heart of everything we do

A brief introduction to the history, heritage and the varied and diverse services offered by the Howarth Timber Group, the UK's largest privately owned and operated timber company.

difference through independence

It's not simply our vast array of products and services,
it's the hours of training and investment we make in
every member of our team that makes us different.

difference through independence

**HOWARTH
TIMBER**

With a network of 28 timber and builders' merchant branches offering a wide range of timber and building materials, plus facilities including brick matching, specialist timber treatments, cutting to customers' specifications and milling and machining, Howarth Timber & Building Supplies provides a complete service to construction companies, specialist contractors, house builders, professional tradespeople and self-builders.

Comprehensive stocks of timber, building materials, heavyside, plumbing products, sheet materials, and environmentally focused products are held for immediate collection or delivery to site, and many stores also carry extensive ranges of internal and external doors, flooring options and showrooms brimming with the latest kitchen, bedroom and bathrooms designs.

Howarth Timber Engineered Solutions is a leading timber engineering business, located at three strategically positioned manufacturing sites across the UK. With a dedicated team of timber engineering experts, the very latest manufacturing processes, integrated supply chains and strong environmental credentials, Howarth Timber Engineered Solutions prides itself on always achieving timber engineering excellence.

From concept to completion, and alongside a full supply and installation service, Howarth Timber Engineered Solutions provides a complete range of engineered timber roof and floor panels including roof trusses, attic trusses, spandrel panels, I-joist kits, I-joist decks, and posi metal web joists and decks.

Howarth Windows & Doors is one of the UK's leading manufacturers of high performance softwood windows and door sets. Our extensive and innovative range of products is the preferred choice of architects, housing developers, contractors, specifiers and merchants nationwide and are available as supply only or supply and fit.

As a market-leading manufacturer, the business is committed to research and development, representing product and sustainable innovation at its best. We are proud to be at the forefront of manufacturing high performance, sustainably focused windows and doors that help make a real difference to the environment.

The Howarth Timber Group is proud to introduce the Howarth GreenHouse, combining the latest environmentally focused products with specialist proven training solutions.

Working alongside some of the world's foremost manufacturers of sustainable solutions the Howarth GreenHouse range includes the latest energy saving innovations, including solar thermal, solar photovoltaics, air/ground source heat pumps, biomass boilers, mechanical ventilation heat recovery, external wall insulation and voltage optimisation, among others.

Completing the picture is a dedicated training solution for a wide range of renewable energy and energy saving products, as well as sustainable construction and Green Deal Certification.

With over 170 years' experience, the Howarth Timber Group provides not only the widest range of products, but exceptional expertise, service and knowledge.

difference through independence

NEW DEVELOPMENTS FOR 2013/14

Click & Collect

Save time and money by using our new click & collect service when you buy a range of products from www.howarthonline.co.uk. Simply pay online and collect from your chosen Howarth Timber branch 2-3* working days later.

*Click & collect is only available for credit/debit card payments, orders for accounts are to be placed with branches direct. Geographical limitations may apply. Time shown is only an average, please check at time of ordering.

Expanded cladding range lets you 'dare to be different'

Stand out from the crowd with expanded thermally treated cladding options, including Hardwood Frake, Southern Yellow Pine, Ash and Redwood cladding ranges. Alongside the inherent durability and long-term benefits of thermally treated timber, they will give your project a touch of uniqueness.

Visit the Howarth GreenHouse

Have you visited the Howarth GreenHouse yet? One of the few dedicated centres of its type in the North West, it combines the latest environmentally focused products with specialist proven training solutions.

Howarth at home

We work closely with leading manufacturers, carefully chosen for the quality, diversity and value of products they provide. Everything from appliances and worktops to a full kitchen, bedroom or bathroom through to complementary products like flooring and lighting that you need to finish the job.

Celebrating timber

With a long and proud tradition of supplying quality timber, timber products and associated services, Howarth Timber & Building Supplies has established an enviable reputation for its versatility, reliability and expertise.

OUR GREATEST ASSET

Our teams provide expertise, service and knowledge you can rely on

Customers are at the heart of everything we do. Now the UK's largest privately-owned timber company, our origins can be traced back to 1840 when we commenced trading as Hudson & Co. Over the years, the Howarth Timber Group has expanded to employ more than 1,000 talented individuals.

Every member of our team undergoes intensive and ongoing training to ensure that they are kept up-to-date with the latest product and specification information.

It is this commitment that ensures our customers are provided with best practice knowledge on Howarth's extensive range of products and services, everything from plumbing and heating products, to the latest environmentally focused technologies.

**HOWARTH

OVER 170 YEARS LEADING THE INDUSTRY

Our teams provide
expertise, service and
knowledge you can rely on

When a young man, John Howarth, came from Lancashire with his family to work for his uncle's small but thriving timber business in Leeds in the latter half of the 19th century, the idea that, nearly 200 years later, the firm he joined would not only bear his name but still be owned, managed and controlled by his descendants must surely have never entered his head.

Today, the Howarth Timber Group encompasses a network of timber and builders' merchant branches geographically spread across the country, complemented by dedicated manufacturing divisions supplying class-leading windows and doors and highly specialist timber engineering products and services.

With a continued clear focus, the Howarth Timber Group is proud of its place at the very forefront of its industry.

The Howarth Timber Leeds' branch features a drive-through collection facility, one of the few of its type in the country.

FOCUSING ON THE FUTURE

We're committed to making a difference, for now and the future

The Howarth Timber Group recognises it has a significant responsibility to ensure its impact on the environment is at all times minimised.

From sourcing timber from certifiable forests through to recycling at every stage in the production process, the company carefully monitors its environmental performance, whilst continually seeking new ways in which ever more stringent environmental targets can not only be met, but surpassed.

Howarth's businesses are proud supporters of many sustainability- and environmentally-focused organisations, such as the Forest Stewardship Council (FSC®), Programme for the Endorsement of Forest Certification schemes (PEFC), Responsible Procurement Programme (RPP) and Chain of Custody (CoC) initiative.

All our third party supplier products are assessed to ensure they meet the government's latest environmental requirements and labelling, such as EUTR and CE marking.

Within these initiatives and others, the group is determined to retain its role as a clear industry leader in protecting our environment.

THE HOWARTH GREENHOUSE

The latest environmentally focused products and energy training solutions

The Howarth Timber Group is proud to introduce the Howarth GreenHouse, combining the latest environmentally focused products with specialist proven training solutions.

Comprehensive product range

Working alongside some of the world's foremost manufacturers of sustainable solutions the Howarth GreenHouse range includes the latest energy saving innovations, including solar thermal, solar photovoltaics, air/ground source heat pumps, biomass boilers, mechanical ventilation heat recovery, external wall insulation and voltage optimisation, amongst others.

Specialist energy training

The renewable energy installation industry is the fastest growing sector within the construction, building services and engineering sectors. The Howarth GreenHouse can provide information and training across our complete range of renewable energy and energy saving products.

With working models of air source heat pumps and rainwater harvesting, as well as display units from insulation to mechanical ventilation heat recovery, the Howarth GreenHouse is able to provide a bank of specialist knowledge, training and resources, at one of the few dedicated centres of its type in the North West.

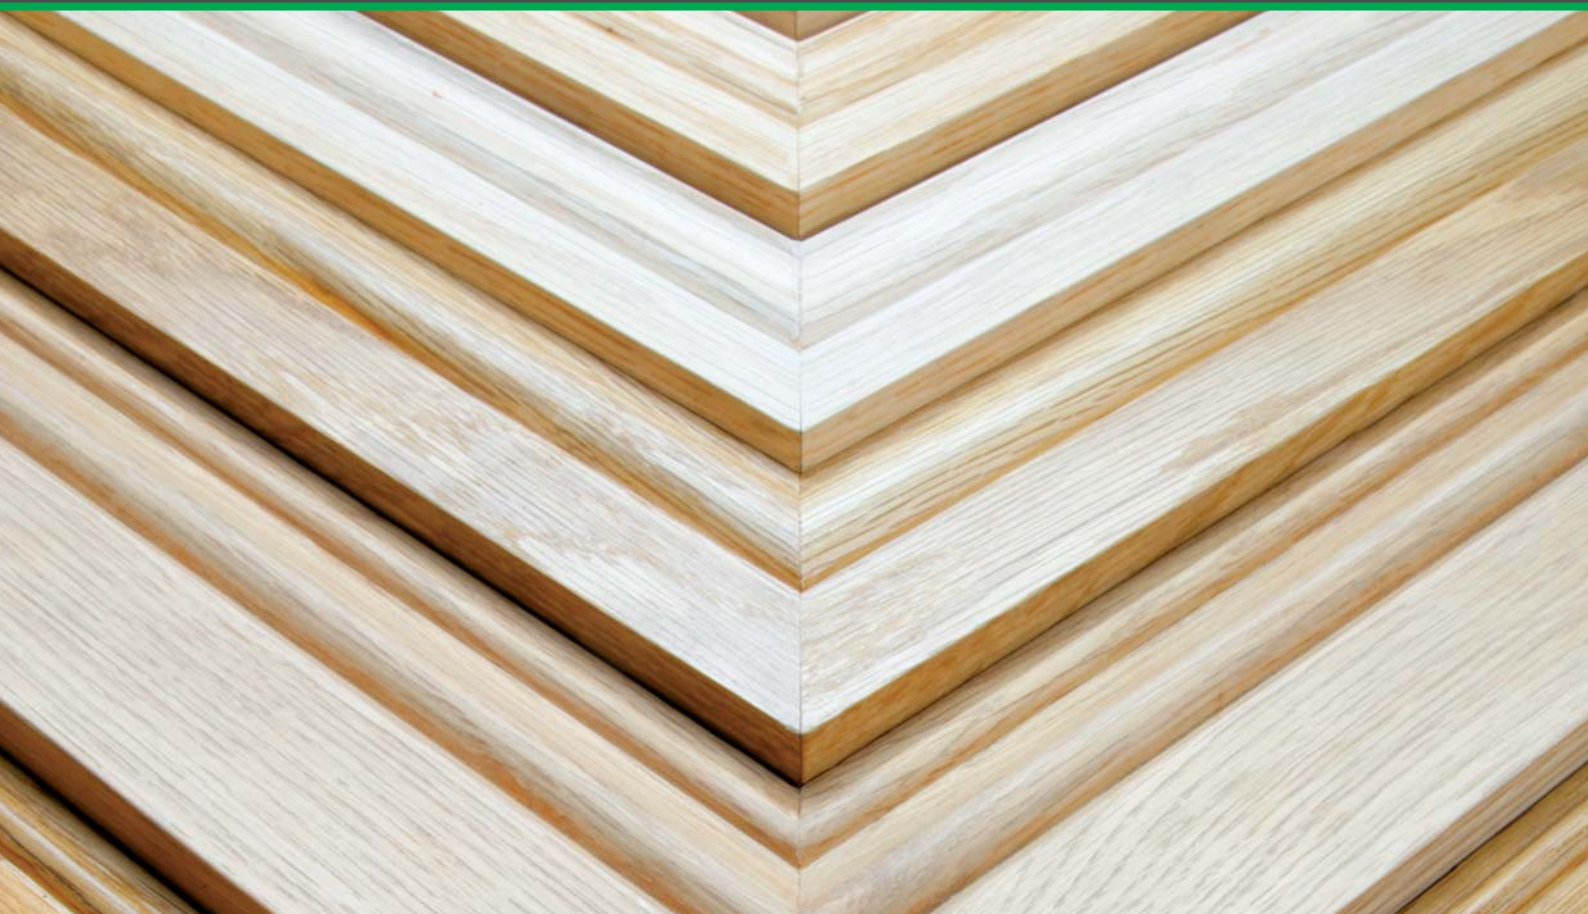

To complete the picture we also offer fully certified supply and fit of air/ground source heat pumps, biomass, solar photovoltaics, solar thermal, mechanical ventilation heat recovery and underfloor heating through our installer network.

Howarth Timber & Building Supplies

TIMBER PRODUCTS

Our nationwide branches supply legally managed resources in accordance with the latest EUTR regulations and we support industry recognised initiatives and directives, such as FSC® and PEFC. This allows us to provide a full Chain of Custody* solution.

But it's not simply the quality and range of products, extensive storage yards and mill facilities, comprehensive distribution networks, sophisticated logistics operations or competitive pricing structure that makes us special. What makes Howarth Timber & Building Supplies different is that we care about the needs of our customers and are totally committed to offering a world-class, personal service.

*Please check at time of ordering if CoC is a condition of supply.

With a long and proud tradition of supplying quality timber, timber products and associated services, Howarth Timber & Building Supplies has established an enviable reputation for its versatility, reliability and expertise.

Our computer controlled machines allow precision cutting and moulding to a wide range of widths and lengths, providing a truly bespoke service. From a traditional profile to match a period interior, to a completely new design for a modern housing estate, our staff work with you to create the exact style you need.

Produced to consistent and quality assured finishes, our production processes deliver minimal wastage with no rejects. Whether you simply need a quantity of chipboard to a certain size or a fully bespoke internal mouldings solution you can be sure of Howarth Timber & Building Supplies' renowned reliability and customer service.

Howarth Timber & Building Supplies

HARDWOOD PRODUCTS

As a timber specialist, Howarth Timber & Building Supplies can provide a wide selection of hardwood species including American White Oak, American White Ash, Sapele, Iroko, Tulip Wood, Keruing, Idigbo, European Oak, Maple, Beech, Kapur, Lyptus, IPE, Yellow Balau, Massaranduba, Bangkirari and Tali.

Hardwood is ideal for a wide range of applications including stairparts, decorative mouldings, decking, flooring and claddings. By selecting hardwood you are making a statement that quality counts.

At Howarth Timber & Building Supplies we aim to ensure everything we do is quality. We offer a fully bespoke* service, which allows customers to select and match materials in colours and finishes to suit their own individual tastes. Looking for a heavy grained feature? We can provide a brushed surface finish. Looking for a specific size, pattern or style of moulding? We can provide it for you. The opportunities are limitless and only restricted by your imagination.

BUILD YOUR OWN -
TREATED COMPONENTS
AVAILABLE

From arches, arbours, decorative trellis, planters and pergolas to stylish yet practical log cabins, climbers and garden gates, Howarth Timber & Building Supplies has it all.

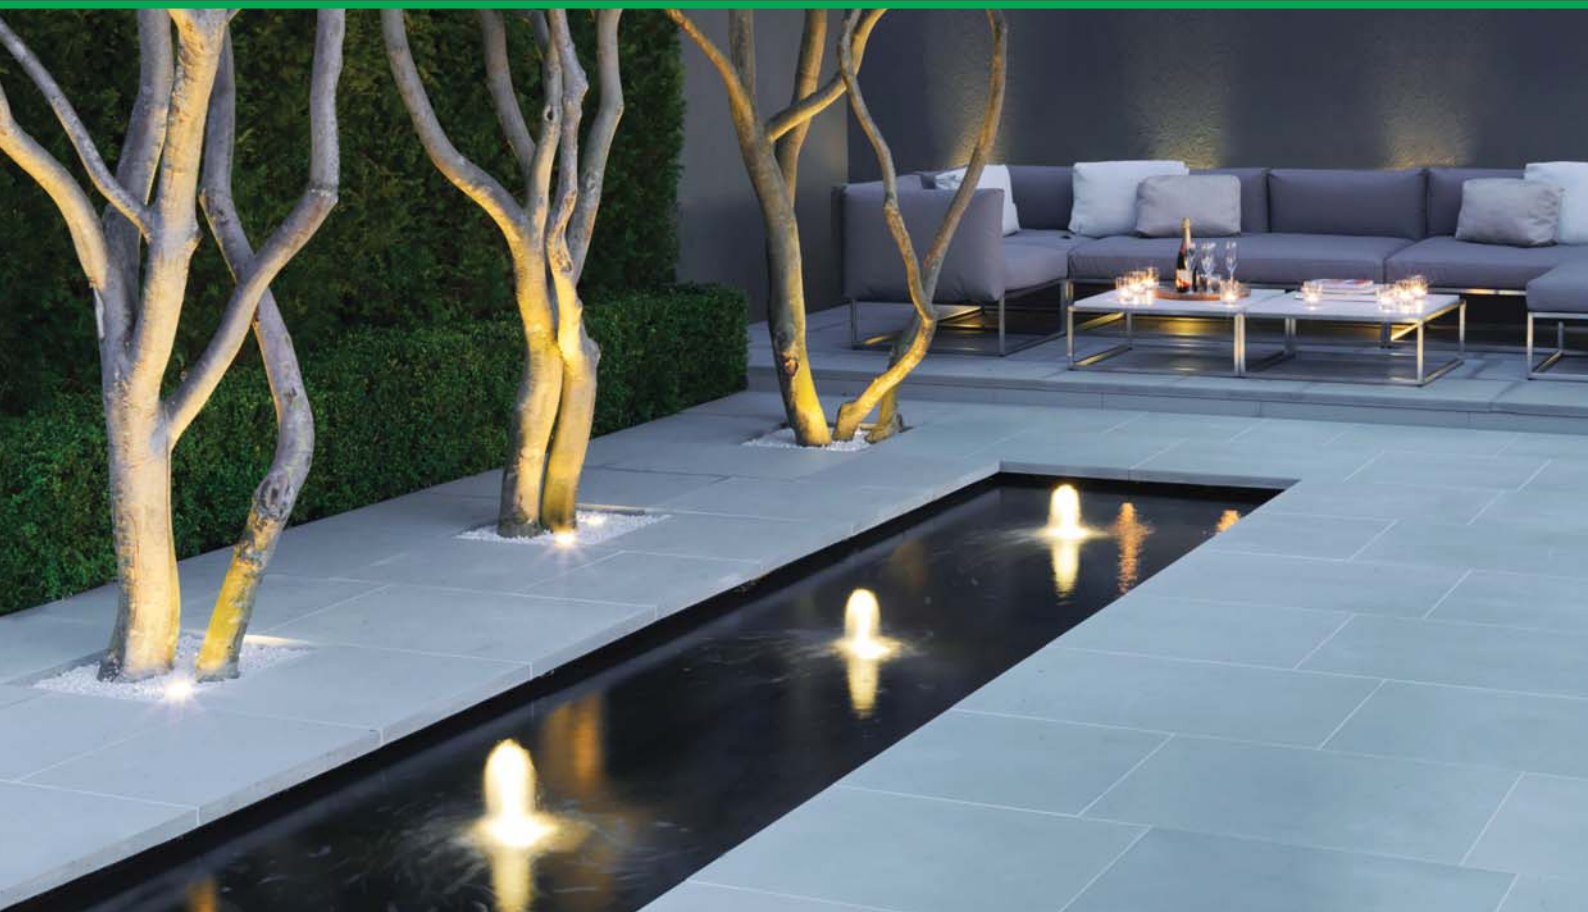

The majority of our timber garden range is pressure treated. This reduces the need for further treatment, saving time and money and helping the environment by reducing the amount of chemicals used annually.

We also offer a range of high quality treated components, complemented by expert advice, cutting and delivery services, letting you build the perfect solution for your needs, be it a shed, storage, log store, composter or raised bed.

Howarth Timber & Building Supplies

LANDSCAPING

The difference that hard landscaping products, such as paving, can make to your outdoor space is significant. Whether it's a simple base for a garden shed or an impressive feature paving kit for a dramatic patio where you can entertain family and friends, you will find your local Howarth Timber & Building Supplies has a hard landscaping product for every requirement.

Design and preparation is paramount to any project. Considering factors such as weed prevention and drainage at the early stages of design will help ensure your project looks good for longer. Howarth Timber & Building Supplies works with leading specialist companies to bring you a single source solution. The ranges are of the very highest quality and, wherever possible, from ethical sources for your peace of mind.

The majority of our suppliers offer simple, easy-to-follow guides on how to make the very best of the available space you have. Our teams can also provide valuable assistance with selection of materials for specific areas or uses.

DESIGN & INSTALLATION

FIXINGS, SPECIALIST TOOLS, MAINTENANCE PRODUCTS & ACCESSORIES

A simple, well-designed timber deck can be one of the most cost-effective and practical ways to enhance your living space. Whether you choose a timber deck terrace extending from the conservatory, kitchen or lounge, or a more complex solution, which can open up the entire house to the garden, decking can truly bring the outside inside.

Howarth Timber & Building Supplies has consistently been at the leading edge of the decking market with the choice and variation our range provides. A recent addition, composite decking, has been used in the USA for over 20 years, and we are able to offer the UK a wide selection of products in this alternative area. Composites allow for elaborate designs to be created and, with the inherent qualities of composite, your decking will look great for years to come.

Another recent development is a thermally treated selection of softwoods and hardwood decking products. Widely used on the continent, the uniform colour resulting from the heat treatment process provides a warm golden brown appearance alongside increased structural and durability qualities.
