

# AATi Commercial

---

## PROJECT CASE STUDY

April 2019

### THFC Stadium, Fan Shop London.

**Client:** THFC

**Architects:** F3

After a much anticipated wait Spurs have finally moved into their new north London stadium and I think we can all agree it was worth the wait!

The THFC stadium is now one of the largest in the Premier League with a capacity of 62,062, boasting the world's first dividing retractable football pitch to reveal a synthetic turf underneath, enabling NFL matches to be played at White Hart Lane along with concerts and other events.

AATi worked closely with F3 Architects to create a bespoke design incorporating the clubs branding onto the cast metal anti-slip stair nosings (see above pictures). Bespoke design is just one of the services that AATi can offer, with the latest 3D printing and CNC machining technology anything is possible! Please contact one of the team now to what unique design we can do for you.

Also coming soon to the stunning Tottenham Experience;

- **Stadium Tours,**
- **Unique Sky Walk**
- **Museum and Club Archive.**
- **Spurs Shop** – the largest retail space of any football club in Europe.
